

Description Of KSM 11

Sufficient Capacity

With a capacity of 1 litre, this electric kettle can boil enough water for several cups of your favourite beverage. With every use, it provides sufficient water for several functions. Pour yourself a cup of tea, noodles for you older child and a bottle of boiled water for your infant all in one go!

Concealed Elements

Appliances which are used for boiling liquids need to be designed so that its electrical circuits stay protected. The Kettle has concealed elements which not only protect the user, but also the kettle from damage.

Intelligent Functioning

An auto cut-off feature makes this handy kettle an appliance which is safe for use in your house by every member of your family. It switches off itself when the water has boiled, preventing damage to your home, or to your appliance.

Efficient and Hygienic

The wide mouth of this durable kettle makes it easy to clean. Your hand will easily reach the base of the kettle to scrub it clean!

Strong and Durable

Made of high-quality food grade plastic, this electric kettle has a sleek and attractive body which is built to last. Prominently placed water indicators on the side of the kettle make it easy to determine when and how much to fill it.

Single Touch Lid Locking

The lid of the Kettle closes with a single touch, to facilitate single hand operation. Just fill it up and press it shut to start working. The lid locks into place to eliminate chances of accidental spillage.

Ergonomically Designed Handle

The contoured handle of this kettle with 1 litre capacity is ergonomically designed to facilitate a firm grip while you work.

Separate Power Base

This kettle has a modern design which includes features designed to give you ease of use. It can be placed at a convenient spot on your kitchen counter so that everyone in your family can pour themselves a steaming cup of water for their tea or coffee.

Multi Utility

Light, portable and convenient, the Kettle is a versatile appliance which can be put to various uses. Gift yourself one today, and experience the convenience it provides!
